BRAND PROTECTIVE PACKAGING

FasFil® Jr. is a full-featured, powered paper void-fill system specifically designed for pack station needs. Ideal for medium-volume shippers, your packers will enjoy multiple operating models that meet their needs and increase packing efficiency. Its compact size optimizes the pack station area with mounting options that include tabletop or optional floor stand. This system offers integrated anti-jam sensors and a one-touch reset.

Operational
Efficiency

Achieved with quick installation and little training needed. System is easy to use, has multiple operating modes, and a small footprint.

System
Integrity

Benefit from reliability you can count on, with minimal downtime.

Package
Optimization

Customize pad lengths with the push of a button allowing you to right-size boxes and save on freight costs.

Brand
Experience

Prevent damage while utilizing sustainable, paper packaging. Take advantage of custom logo printing for the ultimate brand experience.
