BRAND TEMPERATURE ASSURANCE SOLUTIONS

TempShield™
Reflective Foil
bubble solutions

Sealed Air®

Whether you are a pharmaceutical company looking for an extra few hours on the tarmac or a food company trying to solve the last mile, **Tempshield™** solutions has distinct advantages to keep your products cool throughout the journey.

Freight Efficiencies

TempShield™ is flexible and easy to packout. Freight and warehousing is minimized as it ships flat. Optimize your fulfillment process while improving cube and dimensional weight.

Cost Efficiencies

Our thermal insulating bubble solution ships and stores flat reducing freight costs as well as valuable warehouse space requirements to store the packaging.

Product Safety

Through emissivity, a radiant thermal property, TempShield™ extends the time a product can remain out of refrigeration and ensures the consumer receives their perishables safely and undamaged.

Customizable

Our TempShield™ solution is sold in reflective foil Bubble bags, liners and covers, can be purchased in various sizes to suit application and has the option of customizing the closure mechanism to seal the items.

Custom die cut pieces turn your ordinary cardboard box into a lightweight cooler for shipping perishable items
